

SCS Compact

SCS Compact CT

The SCS Compact CT is our entry-level model providing the high-quality Rex-Royal quality standards for professionals. Beside of the preparation of coffee and the dispensing of hot water, the high quality Rex-Royal brewing unit guarantees a constant piston contact pressure. The powerful pump and the high-quality Rex-Royal grinders are a guarantor for a constant coffee quality during the whole brewing process. The SCS Compact CT combines the most modern technology with easy operation in a compact design. It is the perfect coffee machine for offices, convenience stores, takeaways, petrol stations etc. If required, you will be able to prepare two coffees simultaneously.

Features

Coffee

Hot Water

Advantages

- Capacitive touchscreen control panel up to 10 beverages. The functions are self-explanatory and harmonious. Stored programming settings can be easily transferred to other machines.
- Simultaneous preparation of two beverages.
- The proven, refined, Rex-Royal metal brewing unit containing up to 15.5 grams of coffee powder, guarantees, also for double products, an optimal extraction of the coffee grounds and ensures an outstanding coffee quality.
- The reliable stainless steel rotary-disk-pump with extreme efficient brushless motor guarantees a constant brewing pressure and consequently perfect coffee.
- Up to 175 mm outlet height.
- Modular construction of the coffee machine for short intervention and maintenance times.
- Swiss quality – Swiss Made
